Practice Pharmacist working full time and part time

This is a fantastic opportunity for a Practice Pharmacist to enhance our existing friendly and active team of prescribing and non-prescribing Pharmacists, supporting them in the management and delivery of the medicines optimisation service.

You will work in a supportive Practice which recognise the importance of teamwork, CPD and mentoring and will be involved in supporting the practice with medication reviews, queries, delivery of the repeat prescription service and much more!

Ideally you will be a qualified Pharmacist who may not have previously worked in Primary Care but has the ambition to learn new things daily. You will have the desire to work independently with patients on the telephone, video consultations and face to face. You must be someone who is able to multi task, support and develop with the colleagues in your team; prescribe safely, and effectively for our patients with a smile.

If you would like to discuss this further and / or arrange an informal visit please contact:
Lisa Trimble, Practice Manager - lisa.trimble@nhs.net
